PETITION TO CORRECT INVENTORSHIP

UNDER 37 CFR § 1.48(a)

JUL 18 2003

OFFICE OF PETITIONS

Applicants respectfully request permission to enter the enclosed Preliminary Amendment in the instant patent application. The Amendment requested would address a correction in the inventorship of the patent application under 37 CFR § 1.48(a). The Amendment will add the names of two (2) inventors who were not initially listed as inventors of the invention being claimed. An inadvertent error in inventorship was made when this application was filed, such error was made without deceptive intent. Applicants became aware of this error on or about July, 1998 while reviewing the Filing Receipt for the instant application. The original named inventors, did not have a complete understanding of the legal definition of "inventor" at the time

of filing this application, and at that time believed they were the only inventors. Only after the Filing Receipt was received and further discussions were held was it discovered that two additional inventors should have been added.

Applicants respectfully request that Joseph M. Calabro and William Conrad be added as inventors in the instant application.

Applicants respectfully request the recommendation of the Primary Examiner and the approval of the Commissioner to enter the Preliminary Amendment to correct inventorship being filed herewith.

A Declaration and Power of Attorney document signed by all inventors is also enclosed as required by 37 CFR § 1.63.

Accompanying this Petition is a Verified Statement by Laird Broadfield, Patricia M. Lee, Paul M. Seelinger, David T. Heffron, Albert W. Dibelka, John J. Rodenrys and Robert J. Feeney, the original named inventors, setting forth when the error was discovered and how the error occurred.

Our check in the amount of \$130.00 is enclosed to cover the prescribed fee under 37 CFR § 1.17(h).
